# COMMERCIAL/RESIDENTIAL PRODUCTS

## AGGREGATE STONE & SAND

We can supply aggregate stone as well as sand for driveways, erosion control, public works, embankments, backfill and other various residential and commercial projects. We have tractor trailers, tri-axes and stone slinger trucks available to deliver our products.

## READY MIX CONCRETE

At JJ's Concrete we pride ourselves by supplying our local and surrounding areas with quality concrete poured to suit your specific needs.

JJ's Concrete offers all types of concrete for poured floors, basements, garages, patios, porches, poured concrete walls and retaining walls.

Call us to help you customize all your concrete projects.

## LANDSCAPING ROCK

JJ's Concrete offers a variety of high-quality rock for all your landscaping and construction needs.

We carry five different types: 8Ls, 5Ls, Black Granite, Black Trap, and Red Granite.

You can stop by anytime to pick up small quantities, or if you need larger amounts, just give us a call before coming in. Our selection is perfect for any project, big or small.

## COLORED POURED CONCRETE

With colored concrete the creative options and color choices are endless, making it possible to achieve the perfect look. Colored concrete can transform a room or patio from plain to spectacular.

Colored concrete can be used to simulate the look of brick, flagstone, pavers, or tile. Not only is concrete coloring a beautiful design option, but it is also affordable and compatible with both new and existing concrete.

Colored concrete can be paired with other concrete finishing techniques to create a striking affect. These techniques include broom finishing and exposing of aggregate. Broom finishing can create shadow effects, "swirl" and "fan" patterns on colored concrete. Exposing of aggregate gives the concrete a natural textured look by letting the stone or gravel in the concrete show through.
